High speed shearing emulsification tank, one of the most advanced blenders in China presently, is widely used in milk, drink and food etc. This tank has its own agitation with the sealing pairing of rotor and stator to ensure that the materials can be cut in high speed of near one million per minute. And any one can be chosen among three stators in this structure. It can be made to be single layer, double layer, three layer.

Technical

Model	Diameter (L)	Inner diameter (mm)	Height (mm)	Shearer Motor power (KW)	Mixer speed (r/m)
RHTY-600	600	800	2140	7.5	2900/1450
RHTY-1000	1000	1050	2380	11	2900/1450
RHTY-1500	1500	1180	2450	15	2900/1450
RHTY-2000	2000	1340	2760	18.5	2900/1450
RHTY-3000	3000	1540	2870	22	2900/1450
