

# Sugar Melting Tank

## Complete Line

- pasteurized milk production line
- UHT milk production line
- yogurt production line
- cheese production line
- butter production line
- skid mounted pilot plant
- condensed milk production line
- ice cream production line

## Machinery

- Stainless Steel Tanks
- sugar melting tank
- emulsification tank
- blending tank
- yogurt fermentation tank
- milk tanker
- milk cooling tank
- large outdoor storage silo
- Sterilizers
- CIP system
- melting and dissolving machine
- evaporator & degassor
- cheese & butter machine
- heating and cooling machine
- crate washing machine

Dairy Processing >> sugar melting tank

### sugar melting tank

#### DESCRIPTION:

High-speed sugar melting tank, rotated by the high speed mixer at bottom, speed of mixer is 1440rpm;  
This equipment is the best one among the similar types in which materials can be mixed well by stirring, extrusion and shearing.  
This equipment is widely used for mixing sugar, milk powder, starch, stability reagent in emulsion and colloids.

Model	volume	External dimension	Maximum working pressure	Maximum working temperature	Agitator speed (r/min)	Motor power (kw)	material	Inlet/outlet for product
RHBF-400	400L	950×900×1500	Normal pressure	100℃	1440	7.5kw	SUS304	φ51
RHBF-500	500L	1100×1000×1500		100℃	1440	7.5kw	SUS304	
RHBF-600	600L	1200×1100×1600		100℃	1440	11kw	SUS304	
RHBF-700	700L	1300×1200×1600		100℃	1440	11kw	SUS304	
RHBF-800	800L	1400×1300×1700		100℃	1440	11kw	SUS304	
RHBF-1000	1000L	1500×1400×1800		100℃	1440	15kw	SUS304	
RHBF-1500	1500L	1600×1400×1900		100℃	1440	18.5kw	SUS304
